The background image shows a tall, modern high-rise building under construction. The building has a glass facade and is surrounded by other city buildings. The sky is a vibrant mix of orange, red, and purple, indicating a sunset or sunrise. The image is framed by a dark blue L-shaped graphic element.

Rooted in Western Canada, Pagnotta is a family-owned, integrated construction company specializing in concrete construction, construction management, and equipment services.

**“Changing
skylines,
building
futures.”**

With over 25 years of experience in construction, Pagnotta has longevity as a dedicated builder specializing in high-rise mixed-use and commercial projects. Our people know the construction industry and can support our clients with smart solutions to complex projects. We partner with our clients to ensure deep understanding of the project, impactful application of our expertise, and effective project execution. From the award of our first project in 1992, the Pagnotta team has been dedicated to our vision of “changing skylines, building futures.”

Working hand-in-hand with general contractors, developers, and property owners, Pagnotta’s talented team brings a combination of quality and efficiency to project execution that comes from years in the field. **Our transparent, solutions-based approach means our clients can expect practical advice, guidance, and support, at every stage of their project.**

As a private, family-owned company, we cultivate a connected and open culture that filters down to our client relationships through honesty, accountability, and communication. We view clients as our partners and invest in building deep, collaborative relationships that drive value on every project.

Our Divisions

Today, Pagnotta operates three distinctly successful divisions: Pagnotta Construction, Pagnotta Concrete, and Pagnotta Equipment.

Our comprehensive expertise, that spans all divisions, and our ability to integrate our services—means we can add value for our clients by creating efficiencies, lowering risk, and controlling schedule and budget to ensure project success of any type.

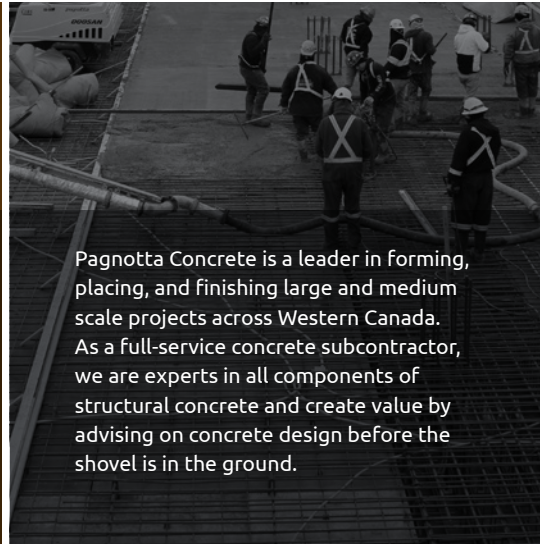

Pagnotta
EQUIPMENT

Pagnotta Construction has established itself as one of the foremost commercial and residential construction management companies. We deliver on complex designs through a collaborative, client-focused approach, starting with pre-construction planning services through to a well-constructed, finished product.

Pagnotta Concrete is a leader in forming, placing, and finishing large and medium scale projects across Western Canada. As a full-service concrete subcontractor, we are experts in all components of structural concrete and create value by advising on concrete design before the shovel is in the ground.

Pagnotta Equipment offers a variety of services from crane and hoist rentals and general maintenance to the provision of spare parts and onsite support by certified operators and technicians. Our longevity in the industry enables us to provide detailed and effective equipment planning that considers all aspects of project logistics and challenges.

Partner with Pagnotta

Fueled by our mission to inspire leadership, innovation and excellence in construction and in our communities, our team maintains a keen desire to drive successful projects in the communities we serve, while contributing to a vibrant and growing local infrastructure.
